Technische Änderungen vorbehalten/subject to change without prior notice

monoflow 20

monoflow 200

Our hand sealing units are very strong and powerful machines that fulfil all requirements of the processing of modern mono-component sealants and adhesives in a superior way.

A solid construction guarantees easy handling and maintainability on a high standard.

* depending on viscosity, temperature, batch etc. of material

standard equipment

monoflow 20

- teflon-coated following plate for 20 l hobbock
- 2.5 m water-vapour tight high pressure teflon hose
- 2 lifting columns
- high pressure sealing gun
- mobile unit on wheels

monoflow 200

- teflon-coated following plate for 200 l hobbock
- 2.5 m water-vapour tight high pressure teflon hose
- 2 lifting columns
- high pressure sealing gun

special equipment

monoflow 20

- sealing gun Ultra-Light
- material pressure regulator for pulsation reduction
- drum empty control with pump stop
- cartridge filling unit

monoflow 200

- sealing gun Ultra-Light
- material pressure regulator for pulsation reduction
- drum empty control with pump stop
- heated following plate
- mobile unit on wheels
- cartridge filling unit
- swivel arm
